

August 30, 2012

To whom it may concern.

I have known and worked with Mr. Nigel Frey for 20 years and can say that I have always found him to be diligent and conscientious at every task he undertakes.

In recent years at UNIPOWER he has performed a dual role heading up our International Sales function as well as working closely with me in developing our first on-line presence as well as taking on the role of chief architect for all of the company's Sales Collateral and Marketing Communications.

I would have no hesitation in recommending him to anyone who has a need for the services he now provides.

Sincerely,

A handwritten signature in black ink, appearing to read "Joe Merino", with a long horizontal flourish extending to the right.

Joe Merino
